DISSERTATIONS ON THE ARAB WORLD 3

INDEX 236

Preface

This bibliography is the second supplement to *American Doctoral Dissertations on the Arab World, 1883–1974* (Washington: Library of Congress, 1976). The first supplement, covering the years 1975–1981, was published by the Library of Congress in 1983. The present volume lists dissertations accepted by United States and Canadian universities and reported between August 1981 and December 1987, as well as a number of dissertations accepted before 1981 which were not reported in the previous two bibliographies. The dissertations cover the Arab World, the Middle East as a region, Islam, and the Organization of Petroleum Exporting Countries (OPEC), of which the Arab oil-producing countries are members.

The entries are arranged alphabetically by author and include the title of the dissertation, the National Union Catalog symbol for the university or academic institution (see Abbreviations for Names of Institutions), and the year the dissertation was accepted. Whenever they are available in the source, the number of pages is given and the Library of Congress call number (microform number) is entered at the right-hand margin of the entry. The microform number also serves as the order number when dissertation copies are ordered from University Microfilms International (P.O. Box 1764, Ann Arbor, MI 48106, U.S.A.). Each entry ends with the source of information given in abbreviated form.

Two primary sources were used in the compilation of this bibliography: *Dissertation Abstracts International*, vols. 42–48, August 1981-December 1987 (abbreviated DAI) and *Comprehensive Dissertation Index: Ten-Year Cumulation, 1973–1982* and subsequent annual supplements (abbreviated CDI). Some dissertations were also identified in secondary sources. The citations of these dissertations were sent to the librarians of the institutions granting the degrees to verify the names, titles and acceptance dates. The assistance of these librarians in this matter is greatly appreciated.

This publication includes an index based on the major subjects of the dissertations and key words in their titles.
